CampDocs is designed to be used best by someone using a smart phone or tablet to enter your family's information, easy upload of insurance cards and other forms (simply take a photo of the card or form and place it in the form).

Why Camp Doc Registration?

- To make sure the information given by the parent/guardian reduces the potential for human error in the transposition of paper forms and written medical instruction.
- Insurance card uploading is a snap. Simply take a picture of your insurance card and upload it when prompted.
- With electronic signatures we will reduce the problem of parental signatures missing on hand-written forms.

Parent communication

- Confirmation emails
- Camp Gram - Send a note to your camper via the app to be distributed by the camp staff.
